Epson **TM-T90 Series**

DATASHEET

Reinforce your brand

This thermal printer gives you the opportunity to create a truly unique receipt or coupon. Capable of both high speed mono printing, colour text and high resolution graphics, the TM-T90 is one of the most versatile printers available today. The printer's advanced features enable you to experiment with digital logos and complex colour graphics including two-dimensional barcodes.

Enhanced customer service

The high-performance TM-T90 helps to minimise queues in fast-moving retail environments by keeping transaction times to a minimum. This is due to a phenomenal printing rate of 170mm/sec for mono text and graphics, together with the capability to accept large diameter paper rolls, and reduce print margins, thereby minimising the number of paper roll changes required. Features such as drop-in paper load and selectable auto-cutter also make the printer easy for your checkout staff to use, enabling them to concentrate wholly on serving the customer.

Reliable and efficient

The printer's environmentally hardened casing is designed to prevent the ingress of food and liquids, while the excellent cable management system prevents accidental disconnection when in use.

Versatile and adaptable
